**Subject:** Wilcox Oil

Good Morning Bart,

I work with a national remedial and geotechnical construction firm called ENTACT. We have done significant remediation work throughout the United States. I came across the summary about the Wilcox Oil Company site on the NPL List. We were wondering who the viable PRPs are and who is the consultant for this site? Any additional information on this location would be very helpful.

Thanks much for the insight

**Jenni Brechtel**
